The Garden of Persia.

WELCOME TO THE GARDEN OF PERSIA.

The Garden of Persia has always been a magical place, that exists for real.

In fact, it was already mentioned in the Old Testament where it was defined as "Heaven on earth".

The special diversified climates, the generosity of nature, the presence of clean water and the abundance of sunshine give life to fruit and vegetables with an intense and distinctive flavor. Real excellence, unmistakable typicality.

THE GARDEN OF RAHMANI GROUP.

In every garden there is a gardener. And here there is the Rahmani family.

Nobody respects this land more than someone who has deep roots in it. That is why, as a passionate gardener, the family dedicates its best to cultivation, growth and harvesting. But that's not all: the Rahmani family wanted to obtain the best out of the best. Therefore they began producing healthy food starting with dried raisins and pistachios.

More than 145 years of history

WE ARE RAHMANI GROUP.

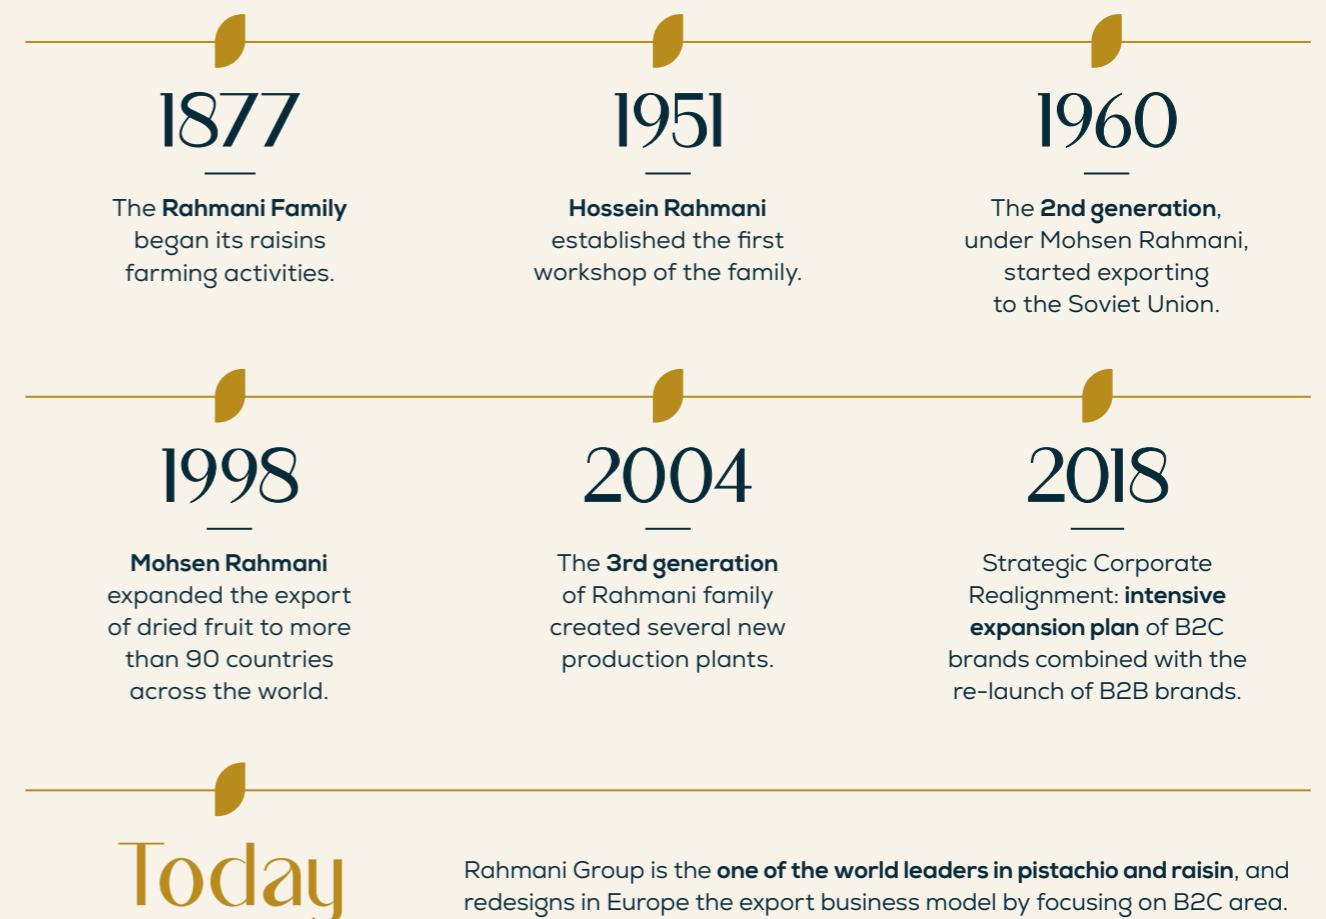

A family company with more than 147 years of experience in the food business.

Coming from one of the agricultural pioneers, we have the ambition to combine healthy ingredients, traditional flavors, innovation and technology to create a deep connection between food, people and cultures.

WE WERE, WE ARE.

A passion for farming, a love for sharing, an obsession for quality.

From day one, we cultivate the fruit of our land to bring people together with delicious food, rooted in the culture of ancient Persia and perfected with modern food science.

A dynasty of Persian excellence.

Our family company was founded over 147 years ago and since then we have raised the standards in our sector by combining agricultural experience, modern technology and educational summits for our customers.

Our values,
our nourishment.

“ My father was a farmer. He cherished his motherland with all his heart. He would spend his days in the fruit gardens and the vineyards of Narjabad in Maragheh to cultivate what he loved the most. I continued my father's passion and his journey. Because of the love and commitment which I have towards the people of my homeland, all my efforts have been in line with introducing and providing my fellow Iranians and other nations around the globe, with products that have been cultivated here and have their roots arising from our enriched culture, because people deserve the best.

The nature
and the farmers.

ON ONE HAND,
THE GENEROSITY OF NATURE
AND ON THE OTHER,
THE GENEROSITY OF PEOPLE.

A deep-rooted bond that will last forever.

Everyday our "Heaven on Earth" gives us the most incredible fruit, the most intense aromas, the purest flavors. Together with the nature, there are hundreds of Women and Men who put all their dedication and experience to ensure the highest quality standards.

OUR FARMERS,
OUR GARDENERS.

We respect our land, we respect those who look after it.

Without them, without their knowledge, their commitment, there wouldn't even be the goodness of our products. The farmers are the fundamental ingredient of Rahmani Group, a resource we take care daily.

A LEADER IN CONTRACT

Our strengths

RAHMANI GROUP IS A KNOWLEDGE-BASED COMPANY

Revolutionizing the agricultural landscape.

Founded with a vision to address the challenges of modern agriculture, our team of experts combines technology and agricultural expertise to bring sustainable solutions to farmers around the Iran.

RAHMANI IN THE SOCIETY, FOR THE SOCIETY.

We are a point of reference, also for the values we cultivate.

As a company we have a responsibility: to support sustainable development, from an environmental, economic and social point of view. We have always paid a lot of attention to this last point, committing ourselves to our social role as a large company that believes in respect for people and cultures.

IRAN IS FAMOUS FOR LOW ENERGY PRICES.

Especially for fuel and electricity.

The country's abundant natural resources, including vast oil and gas reserves, have helped maintaining an affordable energy market, and skilled labor is available at a very reasonable cost.

Iran is **1st**

in terms of energy prices among European countries and China

Sustainable agriculture.

FROM TRADITIONAL FARMING TO MODERN AGRICULTURE.

The culture of recycling, the respect of nature: a duty, a will.

It is our land that gives us the wonderful fruits that we select for you. Our task is to protect them: this is why we respect natural resources, in particular the water that irrigates our crops, with innovative recycling and recovery systems.

WHAT WE DO

WE PURIFY 1 MILLION LITERS OF PRODUCTION WATER AND REINTRODUCE THEM TO THE AGRICULTURAL PROCESS

GOAL

IN THE NEXT 5 YEARS WE WILL REDUCE THE USE OF PLASTIC BY 40%.

From Persia to worldwide.

A PRODUCTIVE FORCE CAPABLE OF REACHING ANYWHERE.

**Quantity, quality, speed of response:
the advantages of choosing a large local company.**

The best quality, large quantities, short lead times.
This is what we offer every day to customers
all over the world, thanks to an unrivaled production capacity and a direct link with the crops.
Energy: a further reason to choose Rahmani Group.
